

TECHNICAL

DURATION OF THE SHOW: 50 minutes

STAGE: it must be flat: 10 m length, 8 m width and 8 m height. It is important to isolate the stage while assembling and disassembling (for example with fences). It must be free and clean when the technicians of the company arrived.

Assembling: 3 hours.

Disassembling: 2 hours.

SOUND AND LIGHTNING: Sound system adapted to the space. If the show is at night or indoors, we need a general lightning.

PRODUCTION: personnel from the contractor production 3 hours before the show until the end of the disassembling: mineral water and access to a toilet.
